June's Best Seller

June was an excellent month for Studio locus, not only has the weather and the mood been brilliant, so has business. The winner this month however is the 'Les Niveaux' Bedside table from the 'Hermitage' Line. We love how the backless storage and invisible feet help this table blend seamlessly into its surroundings. Understated elegance.

What's Trending

With space becoming an increasingly desirable commodity, it is important to maximise what you have. Look for clear and light materials such as glass and oak to give the impression of amplified space in your home. Highlight said materials with accents of green. This will create an association between your home and the great outdoors. Feel inspired? Talk to us about your ideas and take advantage of our **FREE** bespoke design service.

You Have No Idea What We Are Capable Of

Introducing Studio Locus' monthly newsletter. The first of which I will use to introduce myself and give you a tour of my passion, furniture. My name is Greg Adlam, I co-founded Studio locus with my business partner Simon. Simon is a cabinet maker with over 40 years of experience. I am a furniture designer, a fine furniture maker and am doing my best impression of an entrepreneur. Last year we decided to launch Locus, and the results have been phenomenal. With the help and support from my family, friends and girlfriend we have achieved more than I ever could have hoped or could begin to tell you about. Which is why I have decided to start writing this newsletter.

Studio Locus began designing, building and fitting interiors for private clients. One year on, while fitted interiors is still one of our services (available in London and the South East) we have found another talent in furniture. Our free design service allows us to create bespoke pieces and to make bespoke alterations to our range of 'off the shelf' designs. All

Luxury Accessories and Why You Need Them

Luxury accessories, are they only for the mega rich or are they becoming increasingly necessary for all of us?

Luxury should not be a pretentious word, it should not just be associated with gold yachts and exotic cars. Little pieces of luxury in everyday life can reduce stress, boost confidence and inspire creativity.

Here at Locus we believe all these things to be true, and we love to see people loving their lives and their homes. That is why we hand craft luxury accessories and price them honestly. We want everybody to experience small pieces of luxury, everyday. You'd be amazed how telling the time on a solid walnut clock or picking a magazine out of a hand crafted organiser can bring calm and satisfaction to your day.

If you have an idea for a small piece of luxury that would brighten your day, everyday, let us know and we can design you a beautiful, unique, luxury expression of yourself. With the same honest prices you expect from Studio Locus.

our furniture is made to order, by hand, in West Sussex. We refuse to compromise on quality and work closely with private clients as well as interior designers to create the most beautiful furnishings. Our streamline outfit allows me to keep your costs down and on top of that I take pride in offering highly skilled craftsmanship for honest prices. I love exquisite furniture, and want to make as much as possible.

New Releases

June saw Locus Introduce 2 new pieces to the world. The Wilton Desk Clock (See pictured left) and the Emsworth Bedside Table (See pictured below). The Wilton saw the launch of a line of luxury accessories which have and will be high on our list of design priorities, for all the reasons stated to the left. As you can probably tell, we love contrasting materials here. The Wilton expresses contrast in a subtle way compared to the dramatic impact of the Emsworth table. The white frame brings out the depth in colour of the rich varnished walnut finish. By combining these two ends of the scale, we have created a stylish and eye catching piece. Furthermore, with the backless and minimalistic frame, the Emsworth fuses its beauty with its surroundings effortlessly, making it an excellent choice for any bedroom.
