June's Best Seller

June was an excellent month for Studio Locus' bespoke storage. However, the Genoa table received the most attention. With winter drawing in, the warmth of the Walnut become ever more appealing. Remember, bespoke alterations include materials, let us know exactly what you are after and we will take care of the rest.

What's Trending

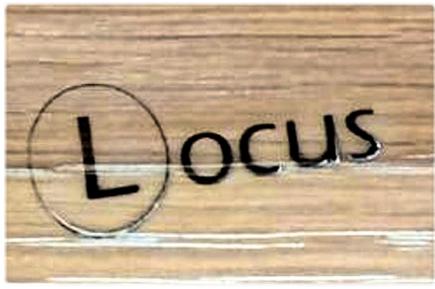

Working from home is becoming more and more common. More work can be done with less cost. However, without an attractive, comfortable and efficient workspace, problems can occur. We love to design bespoke, unique home offices that not only cater to your specific requirements, but have a positive effect on your productivity and happiness. Call **07720653889**, email **info@studiolocus.co.uk** or fill out our enquiry form at **studiolocus.co.uk** to discuss your new home office.

Manufacturing With Pride

Here at Studio Locus we strive for the highest quality of manufacturing. Each day that passes we work on our techniques, we think and re think our methods and we never compromise or settle. This level of attention to detail and passion is rare, especially when you combine it with the willingness to take on obscure projects and challenging details. Recently, we have seen this dedication come to fruition.

We have been approached and have been talking to a number of luxury brands concerning luxury wood products and the manufacture of there existing designs. We have found that our streamlined business model and innovative manufacturing has made us quote the competitor. As a result, our work has been on display in the London Olympia during the 100% Design Festival. A prestigious and much sought after event.

Sign Your Work

We sign our work. Not to make sure nobody copies us, not because of some misplaced arrogance, but because we are proud of what we have achieved and continue to achieve.

A person who signs their work is a person who has confidence in their own ability. Not only do they cut no corners to ensure a great product, they love what they do.

I would recommend everybody signs everything they create. If you are not comfortable claiming everything you make as your own, you will not last long. Find something you can be truly passionate about and get behind it 100%.

New Releases

In Late August Locus Introduced the Hawke Media Unit. Designed initially for Mr W, who boasts a fine furniture design background, the Hawke Media Unit is sleek, contemporary and downright beautiful.

Made from a combination of solid oak and real wood veneers, the Hawke would not look out of place in the most stylish living rooms. The detail of the varnished oak doors give the signature 'traditional meets modern' aesthetic that graces so many of our designs. I think the uniqueness of this piece can be traced to the handle detail. This subtle use of an obscure shape takes the Hawke out of the 'ordinary' category and into the company of furniture with that little something special.

Available for order at studiolocus.co.uk

Remember, all our furniture is made to order, so do not worry over whether your hardware will fit, simply let us know you want to discuss bespoke alterations, and we will take care of the rest.
